State Laws Concerning Participation of Homeschool Students in Public School Activities

This is a list of states that have addressed issues of homeschooler participation in public school classes, sports, activities, etc. The entry for each state below catalogs the particular access issues the state has addressed to the approximate extent the state has addressed them. If a state is not listed, or a particular type of activity is not cataloged within a state's entry, it means we found no state authority on point, and it should be assumed that homeschoolers have no access.

States use a unique vocabulary in this area: "extracurricular," "cocurricular," "curricular," "interscholastic," "program," "activity," etc. Care should be taken to distinguish one from another. When a state defines a word, it is important.

While athletic association rules are not "law," public schools are generally constrained to operate within them, or their teams could be disqualified. We therefore refer to association rules of particular importance in a number of entries.

We strive toward keeping this memo 100% up to date in this rapidly changing area of the law. However, this list should not be considered authoritative because of the possibility of unobserved changes in association rules, statutes, regulations, or case decisions, and because of lag time between changes and the publication of updates.

The appendix section sets out in full many of the statutes and regulations referred to below, and also lists some other resources.

Alabama

In 2016, the Alabama High School Athletic Association amended its bylaws to allow homeschool students and other "non-traditional students" to participate in interscholastic athletics with public schools. This was a response, in part, to Senate Bill 186 and House Bill 287 in 2014. There are numerous requirements: <http://www.ahsaa.com/Portals/0/PDF's/AHSAA/Home%20School/Memo-%20for%20link%20to%20Non-traditional%20school%20laws%20changes.pdf?ver=2016-04-12-170214-927>

Alaska

Effective July 1, 2013, a full-time student who is enrolled in grades nine through 12 in an "alternative education program that is located entirely in the state and that does not offer interscholastic activities is eligible to participate in any interscholastic activities program available in a public school" if certain requirements are met. Alaska Statutes § 14.30.365(a). (continued on next page)

A home school program that is “accredited by a recognized accrediting body” is an “alternative education program.” *Id.* § 14.30.365(c)(1). The law does not specify what “recognized” means. Alaska, like all other states, does not require that a home school program be accredited.

“Interscholastic activities” means “preparation for and participation in events or competitions involving another school when the preparation or participation (A) is sanctioned or supported by the statewide interscholastic activities governing body; (B) is conducted outside of the regular school curriculum; and (C) does not involve participation in student government at a school.” *Id.* § 14.30.365(c)(4).

Arizona

Homeschooled students are allowed to participate in the public schools’ interscholastic activities “in the same manner” as pupils who are enrolled in the public schools. Arizona Revised Statutes § 15-802.01.

Arkansas

If the applicable requirements are met, House Bill 1789, approved April 22, 2013, gives homeschool students a right to pursue sports and other interscholastic activities at their local public school if they score at the 30th percentile or higher on a nationally recognized norm-referenced test. The school district has discretion to allow a student to participate with a lower score or no test score. Any student seeking to participate “may be required to be at school not more than one (1) period per day.” Arkansas Statutes §6-15-509.

California

Rule305 of the California Interscholastic Federation prohibits homeschoolers from playing on public school teams.

Colorado

Children participating in a nonpublic, home-based education program are allowed equal access to the public schools’ extracurricular and interscholastic activities. Colorado Revised Statutes §§ 22-33-104.5(6), 22-32-116.5.

Florida

Home-educated students are eligible to participate in the public schools’ interscholastic extracurricular activities. Florida Statutes § 1006.15.

Hawaii

Because Hawaii does not have a law granting homeschooled students the right to participate in public school classes and activities, individual schools and schools districts have the authority to decide whether to allow homeschool students to participate. Policies vary according to district.

Idaho

Any student who receives educational instruction outside a public school classroom is allowed to dual enroll in a public school to participate in any public school program, including nonacademic activities and post-secondary programs. The same behavior, performance, and responsibility standards apply. Homeschool students must have a standardized test or portfolio showing average performance or performance at the student's grade level. A test or portfolio makes the student eligible (or ineligible) for the current school year and the following school year. Idaho Code § 33-203(4) and (9).

Homeschool students are not required to take a class at a public school to participate in the school's sports program.

Illinois

Nonpublic school students may request to enroll part-time in public schools. The school board has the authority to accept such students into part-time attendance with restrictions but is not required by law to do so. 105 Illinois Compiled Statutes 5/10-20.24. In practice, public schools rarely let homeschool student play on their teams.

According to the Illinois High School Association, each local school determines whether a home school student enrolled at and attending the public school can participate in the school's interscholastic and activity teams. Other requirements apply:

<http://www.ihsa.org/documents/forms/current/HomeSchoolFactSheet.pdf>

Children with disabilities enrolled in nonpublic schools (including homeschools) have a right to enroll part-time in public school. *Id.* 5/14-6.01.

Indiana

Effective starting in the 2013-2014 school year, Indiana High School Athletic Association rules provide that a student enrolled full time in a non-public, non-accredited high school "may have eligibility" to play on teams of his local public school. The student must be enrolled in and attending one class at the public school for at least one full credit. The student must have been enrolled in the non-public school for 3 successive years before submitting a request and he must "complete any state-wide examination authorized by the Indiana Department of Education." The student must be taking and passing at least 70% of the maximum number of classes he could be taking.

See pages 3 and 4 of this document:

<http://www.ihsaa.org/Portals/0/ihsaa/documents/about%20ihsaa/minutes/2012-13/042913%20board.pdf>

See Rule 18:1 <http://www.ihsaa.org/Portals/0/ihsaa/documents/about%20ihsaa/Articles.pdf>

Iowa

Students homeschooling under any option OTHER than Independent Private Instruction may dual enroll with the public school to participate in any academic, instructional, or extracurricular activities offered by the school district. Iowa Code §§256.46, 299A.8; Iowa Administrative Code §§ 281-31.5 to -31.6.

Louisiana

The bylaws of the Louisiana High School Athletic Association (LHSAA) allow home study students to participate in interscholastic athletic activities at the local public school within their attendance zone if the principal approves. See Bylaws 1.19, 1.19.1 and 1.19.2 on pages 29-30 of the LHSAA Handbook http://cdn.lhsaa.org/uploads/handbook/Section_1_-_Eligibility98.pdf. Home study students must meet the same standards and requirements as other students.

The student's parent must make a written request to participate no later than the first 11 days of the school year. The principal of the school must approve or disapprove the request within 30 days. The principal may only request such information and documentation that is required of other students. The principal's decision is final. Rule 1.19.4 says no person "shall have a cause of action arising from a denial" of the request by the principal.

The home study student must provide proof that he is registered with the State BESE and provide a copy of his transcript. The transcript must show units completed or in progress, grades earned, and the cumulative grade point average. Home study students must meet the same academic standards as other students. A parent can demonstrate this by submitting to the principal the same evidence of progress the parent submitted to the State BESE.

(On January 29, 2013, the Louisiana Supreme Court struck down Louisiana Revised Statutes Annotated § 17:236.3 <http://www.lasc.org/opinions/2013/12CA1471.pdf> which had previously given home study students the right to participate in interscholastic athletic activities.)

Maine

Students receiving home instruction may enroll in any classes at the appropriate public school. This includes all academic, cocurricular and extracurricular activities. Maine Revised Statutes Annotated tit. 20-A, § 5021.

For regular classes and cocurricular activities, the superintendent's approval is required, but he may not unreasonably withhold his approval. (See 20-A MRSA §5021.1.A and .4.A. Do not confuse with §5021-A) The superintendent's approval is *not* required for a home instruction student to try out for extracurricular activities. (See 20-A MRSA §5021.5)

However, a federal court ruled that if a homeschooler plays on a private school team, it is not a violation of federal law for the state sports association to disqualify the team from interscholastic competition. *Pelletier v. Maine Principals' Ass'n*, 261 F. Supp. 2d 10 (D. Me. 2003) (After the federal case ended, the state court case was dismissed without a ruling. York County Superior Court, ALFSC-CV-2003-00073.)

Although § 5021(3) seems to give homeschoolers the right to access special education services, schools have taken the position that homeschoolers are not eligible for special education services.

Students homeschooling through a private school "recognized" by the Commissioner of Education as providing equivalent instruction (i.e., by following the applicable guidelines) have access to curricular, extracurricular and interscholastic activities unless the public school does not have the "capacity." See 20-A Maine Revised Statutes §5021-A as amended by LD 92 effective July 22, 2013. (Do not confuse this statute with 20-A §5021.)

Maryland

An intermediate appellate court ruled against private school students who sought to participate in a public school extracurricular activity. *Thomas v. Allegany County Bd. of Educ.*, 443 A.2d 622 (Md. App. 1982).

A private school may include homeschool athletes on its teams without losing its eligibility, according to the Maryland Public Schools Secondary Athletics Association's "[Approved Standards of Competition](#)." (This policy was adopted as the result of a federal lawsuit, *Bressler v. Maryland Public Schools Secondary Athletics Association*, JFM-05CV783 (D. Md. 2005).)
<http://www.mpssaa.org/assets/sanctioning/Standards%20Of%20Competition%20Form.pdf>

Massachusetts

A trial court ruled that a public school and the state athletic association must let a homeschool student try out for and play on a girls' softball team because prohibiting her participation would be unconstitutional as not rationally related to a legitimate state interest. There was no appeal.

See: [Richard Davis v. Massachusetts Interscholastic Athletic Association, Inc., and Dr. Morris Splain, Superintendent of Norton High School](#), No. CA942887, Jan. 18, 1995, 3 Mass.L.Rptr. 375, Superior Court of Massachusetts.

The Massachusetts Interscholastic Athletic Association subsequently amended their rules to allow homeschoolers to participate on public school teams provided they are in compliance with the school's policy. For additional details, see MIAA Handbook Rule 54.
http://www.miaa.net/gen/miaa_generated_bin/documents/basic_module/MIAAHandbook1113.pdf

Michigan

The Michigan Department of Education states that in order to participate in extracurricular activities at the public school, the student "should be enrolled part-time in the public school." (See [Nonpublic and Home School Information](#).) http://www.michigan.gov/mde/0,4615,7-140-6530_6569_35175---,00.html

However, the Michigan High School Athletic Association's [eligibility rules](#) require a student to be "on the school records for at least 66% of full credit load potential for a full time student" in order to play sports for a member school. <http://www.mhsaa.com/Portals/0/Documents/AD%20Forms/eligibility%20summary.pdf>

The Supreme Court of Michigan has ruled that nonessential elective courses offered to public school students must be offered to resident nonpublic school students on a shared-time basis. [Snyder v. Charlotte Pub. Sch. Dist.](#), 365 N.W. 2d 151 (Mich. 1984). The Michigan Department of Education has interpreted this case to mean that both nonpublic and homeschool students may enroll in nonessential elective courses at their local public school. (See [Nonpublic and Home School Information](#))
http://www.michigan.gov/mde/0,4615,7-140-6530_6569_35175---,00.html

"Auxiliary services" which are offered to public school students must be provided "on an equal basis" to nonpublic (but not homeschool) students. Michigan Compiled Laws Annotated § 380.1296. These "auxiliary services" may include speech therapy, language therapy, remedial reading, and other services for students with disabilities. *Id.*

Minnesota

School districts "shall allow all resident pupils receiving instruction in a home school ... to be eligible to fully participate in extracurricular activities on the same basis as public school students." Minnesota Statutes Annotated § 123B.49, subd. 4(a)-(b). This does not include co-curricular activities.

Missouri

Missouri Revised Statutes § 167.031(1) says a student must attend some “public, private, parochial, parish, home school or a combination of such schools.” This might give homeschool students a right to enroll part time in public school.

§ 162.1250.1, which deals with public schools offering online programs, says: “Nothing in this section shall preclude a private, parochial, or home school student residing within a school district offering virtual courses or virtual programs from enrolling in the school district in accordance with the combined enrollment provisions of section 167.031 for the purposes of participating in the virtual courses or virtual programs.” This clearly gives public schools the authorization, and perhaps even the duty, to allow homeschool students to participate in public school online programs.

Missouri State High School Athletic Association rule 2.3.2.b requires that a student be enrolled in the public school for not less than 80% of the maximum allowable course load (or 3 credit hours, whichever is greater) in order to play on a public school team. As a practical matter, this excludes virtually all homeschool students from playing on a team.

http://www.mshsaa.org/resources/pdf/1213Handbook_web.pdf

The Missouri Department of Education states that public schools must give homeschool students access to the district’s gifted education programs. See page 8: [Gifted Education Programs Procedure Manual](#)

Montana

The Supreme Court of Montana ruled that school district policy which kept nonpublic students from participating in sports programs was “reasonable.” *Kaptein v. Conrad Sch. Dist.*, 931 P.2d 1311 (Mont. 1997).

Nebraska

School boards shall allow part-time enrollment of students who are residents of the school district. School board policies may require part-time students to follow school policies that apply to other students at any time the part-time student is present on school grounds or at a school-sponsored activity or athletic event. Nebraska Revised Statutes § 79-2,136.

According to Bylaw 2.5 of the Nebraska School Activities Association, a student must be enrolled in at least 20 hours per week during the current and previous semester in order to represent a high school in athletic or non-athletic interscholastic competition. <https://nsaahome.org/textfile/yb/c&b.pdf>

Nevada

The board of trustees of the school district must allow homeschooled students to participate in classes, extracurricular and interscholastic activities, and sports in the district in which the student resides, subject to statutory requirements. The governing body of a charter school must allow homeschooled students to participate in classes and extracurricular activities when all statutory requirements are met. A notice of intent of a homeschooled child to participate in programs and activities must be filed with the school district. Nevada Revised Statutes §§ 386.462, 386.580(5)-(7), 392.070; Nevada Administrative Code ch. 386, §§ 793, 802, 804.

New Hampshire

Home educated students have access to public school curricular courses and cocurricular programs. “Cocurricular programs” means any activity “designed to supplement and enrich regular academic programs of study, provide opportunities for social development, and encourage participation in clubs, athletics, performing groups, and service to school and community.” New Hampshire Revised Statutes Annotated § 193:1-c.

School districts may adopt policies regulating homeschool participation, as long as the policies are not more restrictive than those governing public school students. *Id.*

New Jersey

Homeschoolers do not have a statutory right to access public school classes or extracurriculars. On November 9, 2011, however, the New Jersey State Interscholastic Athletic Association (NJSIAA) amended their bylaws to make it clear that local school districts may allow homeschool students to compete in interscholastic sports, provided the student (1) resides in the district for which he is playing, (2) obtains approval from his local school board and principal, (3) demonstrates that he is academically qualified and is receiving an equivalent education, and (4) complies with all requirements imposed on other members of the team. (See page 75 of the NJSIAA Constitution, Bylaws, Rules, and Regulations.) <http://www.njsiaa.org/REFERENCES/11-12ConstitutionByLaw.pdf>

Similarly, the New Jersey Department of Education’s website states that local boards of education may allow homeschool students “to participate in curricular and extra-curricular activities or sports activities.” (See question 10 of the Department of Education’s FAQs.) http://www.state.nj.us/education/genfo/faq/faq_homeschool.htm

In practice, public schools rarely allow homeschoolers to participate.

If a public school allows private school students to come onto public school property to receive special education services, they must provide the same access to homeschool students. *Forstrom v. Byrne*, 775 A.2d 65 (N.J. Sup. Ct. App. Div. 2001).

New Mexico

A home school student is eligible to participate in up to three school district activities at the public school in the attendance zone in which the student resides. The school district shall verify each homeschool student’s academic eligibility to participate in school district activities. New Mexico Statutes Annotated § 22-8-23.8.

The New Mexico Activities Association reiterates that home school students may participate in up to three athletic activities during the school year. (See NMAAHandbookRule10.5.) http://www.nmact.org/file/Section_10.pdf

New York

An appellate court ruled against homeschoolers who sought access to public school interscholastic sports. *Bradstreet v. Sobol*, 650 N.Y.S.2d 402 (N.Y. App. Div. 1996). In addition, the Commissioner of Education’s regulations allow a student in grades 9-12 to participate in an interscholastic public school sport only if she or he is a “bona fide student, enrolled during the first 15 days of such semester, is registered in the equivalent of three regular courses, is meeting the physical education requirement, and has been in regular attendance 80 percent of the school time” New York Compiled Codes, Rules & Regulations tit. 8, § 135.4(c)(7)(ii)(b)(2).

North Dakota

A homeschooled student may participate in extracurricular activities in his or her local school district. The student may also participate in extracurricular activities at an approved nonpublic school if permitted by the school's administrator. The student is subject to the same standards for participation as full-time students at the applicable school. North Dakota Century Code § 15.1-23-16.

Ohio

A public school must allow local homeschoolers to participate in extracurricular activities. A public school has discretion to allow a non-local homeschooler to participate in extracurricular activities if the student's own district does not offer the activity. There are academic eligibility requirements. Ohio Code §3313.5312(A), enacted July, 2013.

Ohio Code §3313.5311.(A) states that the definition of "extracurricular activity" applicable to §3313.5312 is found in Ohio Code §3313.537, where it is defined as a pupil program a school sponsors or participates in, including an interscholastic program, that is "not included in the school's graded course of study."

Oklahoma

The federal 10th Circuit Court of Appeals upheld a decision denying a homeschool student access to part-time public school enrollment. *Swanson v. Guthrie Indep. Sch. Dist.* No. I-1, 942 F. Supp. 511 (W.D. Okla. 1996), *aff'd*, 135 F.3d 694 (10th Cir. 1998).

Oregon

School districts must allow homeschool students access to public school interscholastic activities. Oregon Revised Statutes § 339.460.

Pennsylvania

Homeschooled students meeting the same eligibility criteria as public school students may participate in extracurricular activities at their public school district of residence. Such activities may include, but are not limited to, clubs, musical ensembles, athletics, and theatrical productions. 24 Pennsylvania Statutes Annotated § 13-1327.1(f.1). See also 24 Pennsylvania Statutes Annotated § 5-511.

Rhode Island

Homeschool students are eligible to participate in activities sponsored by the Rhode Island Interscholastic League (RIIL) pursuant to art.3,§1(H) of the RIIL Rules & Regulations. See also *Michael B. v. Exeter-West Greenwich Reg'l. Sch. Dist. Comm.*, No. 0077-91 (Comm. of Ed. Nov. 25, 1991). http://www.riil.org/rules/ARTICLE_3.pdf

South Carolina

Homeschool students may participate in "interscholastic activities" at their local public school if they have been homeschooled. Code of Laws of South Carolina 1976 Annotated § 59-63-100(A)(3), (B). For the purposes of this statute, the term "interscholastic activities" is defined as including, but not being limited to, "athletics, music, speech, and other extracurricular activities." Id. § 59-63-100(A)(4)."

According to opinions of the South Carolina Attorney General:

(1) a homeschool student may participate in a school district's Junior ROTC program (Op. S.C. Att'y. Gen. 2012 WL 4009948, Sept. 5, 2012, to Sen. Campsen; and WL 4009949, Sept 5, 2012, to State Sup't. Zais);

(2) the state high school sports association may not prohibit a homeschool student from playing on a charter school team (Op. S.C. Att'y. Gen. 2012 WL 4009948 , Sept 5, 2012, to Sen. Campsen);

(3) otherwise eligible public school students who switch to a homeschool program do not need to sit out one year before they can participate in an interscholastic activity, notwithstanding what a narrow reading of SC Code 59-63- 100(A)(3) might indicate (Op. S.C. Atty Gen 2013 WL 1931658, April 24, 2013, to Rep. Newton); and

(4) homeschool students may play for a different school within the district where they live if public school students there are allowed to open enroll in a different school within the same district. (Op. S.C. Atty Gen 2014 WL 4659413, Sept. 8, 2014, to Sen. Martin).

South Dakota

A homeschool student can participate in public school sports subject to the approval of the school board. South Dakota Codified Laws § 13-36-7. A homeschool student also has a right to partial enrollment in public school. Id. § 13-28-51, as confirmed by an opinion of the South Dakota Attorney General. http://www.hslda.org/hs/state/sd/Attorney_Gen_opinion_SD_11-20-2015.pdf. If the student's enrollment in public school is equal to or greater than 50%, the student is required to take the same tests as public school students as prescribed in SDCL 13-3-55. A homeschool student can obtain a loan of textbooks from the public school. South Dakota Codified Laws § 13-34-23.

Tennessee

The Tennessee Secondary School Athletic Association (TSSAA) permits a homeschooled student to participate in public school extracurricular athletics if that student's parent has filed a notice of intent for that student and has otherwise complied with the requirements of Tennessee Code Annotated § 49-6-3050(b). Other eligibility requirements also apply. (See TSSAA Bylaws, art. II, § 25, page 19.)

Effective March 11, 2015, TSSAA bylaws were changed so that homeschool students associated with a church-related school, or operating in a satellite of a church-related school, or enrolled in a distance learning program, may also participate in public school extracurricular athletics, but they must simultaneously file a notice of intent and follow the requirements of Tennessee Code Annotated § 49-6-3050(b).

If a school is a member of TSSAA, and assuming the student is eligible to participate under TSSAA rules, local schools are prohibited from preventing homeschoolers (who operate under the notice statute) from seeking to participate. See Tennessee Statute §49-6-3050(e), as signed into law April 1, 2013. <http://www.tn.gov/sos/acts/108/pub/pc0225.pdf>

TSSAA member schools may "play or scrimmage any secondary school with grades 9 and above in regular season play. For the purposes of this rule, a school team may be one school or a cooperative program of one or more schools." (See TSSAA Bylaws, art. IV, § 1.) This could include home school cooperative teams and teams from church related schools. TSSAA member schools may also play or

scrimmage individual home schooled students during the regular season, especially in individual sports such as track and field, wrestling, and golf. (See FAQs on page 54 of the TSSAA Handbook.)

<http://www.tssaa.org/handbook/handbook.pdf>

Texas

Because Texas does not have a law granting homeschooled students the right to participate in public school classes and activities, individual schools and schools districts have the authority to decide whether to allow homeschool students to participate. Policies vary according to district. On the other hand, Texas' athletic association, the University Interscholastic League, prohibits homeschool student's participation in UIL sports at the local public school. See the UIL's eligibility policy: <http://www.uil texas.org/policy/eligibility>

Utah

Homeschool students are eligible to participate in extracurricular activities at a public school subject to the same requirements as public school students. School districts may not impose requirements that are not imposed on fully enrolled public school students. Utah Code § 53A-11-102.6; Utah Administrative Code R277-438-3 thru -4, R277-700-6.

Homeschool students who are dual enrolled in the public school are eligible to participate "in any academic activity in the public school available to students in [their] grade or age group, subject to compliance with the same rules and requirements that apply to a full-time student's participation in the activity." Utah Code § 53A-11-102.5(3).

Vermont

School boards are required to adopt rules to integrate home study students "into its schools through enrollment in courses, participation in cocurricular and extracurricular activities and use of facilities." Vermont Statutes Annotated tit. 16, § 563(24). School boards are also required to follow the guidelines contained in Code of Vermont Rules 22-000-009, §§ 4401-05.

Virginia

A school board has the option of allowing homeschool students to take classes. A 1973 attorney general opinion says that "there is no law which prohibits a school board from accepting" a private school student who wants to take an individual class at a public school. 1973 Va. Op. Att'y Gen. (Nov. 30, 1973) (addressed to the Hon. Donald Pendleton). An informal letter from Assistant Attorney General Joan Murphy dated October 6, 1995, indicates that the reference to "private school student" in the Attorney General's opinion should be construed to include homeschool students.

Under Code of Virginia Annotated § 22.1-253.13:2(N), a public school can receive state funding for a homeschool student taking no more than two of the following classes: math, science, English, history, social science, career and technical education, fine arts, foreign language, health education, or physical education.

Washington

Homeschoolers have access to interscholastic contests and competitions because the Washington Interscholastic Activities Association (WIAA) deems homeschoolers to be “regular members” of the local public school where they have filed their notice of intent to homeschool. Rule 18.5.3 and Q&A-2. <http://www.uiltexas.org/policy/eligibility>. The WIAA has prepared an academic plan contract for the student, his parents, public school principal and athletic director to sign. (See Home Based Contract) http://www.wiaa.com/ConDocs/Con395/2010/HomeBased_Contract.pdf

School districts must permit enrollment of and provide ancillary services for part-time students enrolled in home-based education programs. Washington Revised Code § 28A.150.350.

West Virginia

The West Virginia Supreme Court has ruled that homeschooled students can be prohibited from participating in interscholastic athletics with public school students. This ruling held that permitting the West Virginia Secondary School Activities Association to require eligible students to be enrolled full time in a member school did not violate the equal protection rights of homeschooled students. *Jones v. W. Va. State Bd. of Educ.*, 622 S.E.2d 289 (W. Va. 2005).

West Virginia Code §18-8-1(c)(3) says the county superintendent shall “offer such assistance, including ... available resources ... as may assist the person ... providing home instruction.” This section also says that a homeschool student may take “any class offered” if the local school board approves.

Wisconsin

A school board shall allow a pupil enrolled in a home-based private educational program who has met the standards for admission to the course to attend up to 2 courses at a public school in the district during each school semester if the school board determines that there is sufficient space in the classroom. The school board shall determine the minimum standards for admission to a course. The pupil may attend one course in each of 2 school districts, but may not attend more than 2 courses in any semester. Wisconsin Statutes 118.53

Section 1828 of 2013 Wisconsin Act 20, effective July 2, 2013, gave school boards the new power to establish admission standards for admission to individual courses. It also expanded the potential availability of classes from high school classes only to classes at any grade level. Act 20 removed the reference to homeschooling in §118.145 and created a new statute, §118.53, to govern homeschool access.

Effective July 13, 2015, Wisconsin statute 118.133 requires school boards to permit homeschool students to participate in sports and extracurricular activities on the same basis and to the same extent as public school students. The school board may ask the family to provide a statement confirming that the student meets the board's requirements relating to age, and academic and disciplinary records. A temporary rule issued by the Wisconsin Interscholastic Athletic Association states that a statement of enrollment (PI-1206) must be on file with respect to the homeschool student.

Wyoming

State law permits nonenrolled students to participate in any activities which are sanctioned by the Wyoming High School Activities Association (WHSAA) and are offered by the school district in which the student resides. Wyoming Statutes Annotated § 21-4-506.

Colorado Revised Statutes § 22-33-104.5(6)

Home-based education—legislative declaration—definitions—guidelines

(6)

(a) If a child is participating in a nonpublic home-based educational program but also attending a public school for a portion of the school day, the school district of the public school shall be entitled to count such child in accordance with the provisions of section 22-54-103(10) for purposes of determining pupil enrollment under the "Public School Finance Act of 1994", article 54 of this title.

(b)

(I) For purposes of this subsection (6), a child who is participating in a nonpublic home-based educational program shall have the same rights as a student enrolled in a public school of the school district in which the child resides or is enrolled and may participate on an equal basis in any extracurricular or interscholastic activity offered by a public school or offered by a private school, at the private school's discretion, as provided in section 22-32-116.5 and is subject to the same rules of any interscholastic organization or association of which the student's school of participation is a member.

(II)

(A) Except as provided for in sub-subparagraph (B) of this subparagraph (II), for purposes of section 22-32-116.5, the school district of attendance for a child who is participating in a nonpublic home-based educational program shall be deemed to be the school district that received the notification pursuant to paragraph (e) of subsection (3) of this section.

(B) For purposes of section 22-32-116.5, the school district of attendance for a child who withdraws from a public or private school more than fifteen days after the start of the school year and enters a non-public home-based educational program shall be the school district or private school from which the child withdrew for the remainder of that school year. If, during the remainder of that academic year, the child chooses to participate in extracurricular or interscholastic activities at the same school and was eligible for participation prior to withdrawing from the school, the child remains eligible to participate at such school.

(c) No child participating in an extracurricular or interscholastic activity pursuant to paragraph (b) of this subsection (6) shall be considered attending the public school district where the child participates in such activity for purposes of determining pupil enrollment under paragraph (a) of this subsection (6).

(e) If any fee is collected pursuant to this subsection (6) for participation in an activity, the fee shall be used to fund the particular activity for which it is charged and shall not be expended for any other purpose.

Colorado Revised Statutes § 22-32-116.5 (note: the 2013 changes are not incorporated into this excerpt.)

Extracurricular and interscholastic activities

(1)

(a) Notwithstanding any other provision of this article, each school district and each public school, subject to the requirements of this section, shall allow any student enrolled in a school or participating in a nonpublic home-based educational program to participate on an equal basis in any activity offered by the school district or the public school that is not offered at the student's school of attendance or through the student's nonpublic home-based educational program. A school district or school shall not adopt or agree to be bound by any rule or policy of any organization or association that would prohibit any participation allowed by this section. Each nonpublic school may allow a student to participate in a particular activity offered by the nonpublic school, at the nonpublic school's discretion.

(b) Any student may participate in an activity through any amateur association or league of which the school or school district is not a member, and such participation shall not prevent the student from participating or affect the student's eligibility to participate in the same activity at any school, subject to the limitations specified in this section. Prior to participating in any activity through such an amateur association or league, the student shall obtain the express written permission of the principal of the school at which the student participates in the activity, which permission shall be granted if:

(I) The student's class attendance is not compromised; and

(II) The student is in good academic standing under the school's activities policy applicable to all students.

(c) No school or school district that receives funds under article 54 of this title shall belong to any organization or association nor enforce any rule of a coach or principal that would prohibit a student's participation in any school or interscholastic school activity based upon the student's participation in lawful activities during out-of-school hours and off of school property.

(2)

(a) A student may participate in activities only at the student's school of attendance or through the student's nonpublic home-based educational program, whichever is applicable, unless the school of attendance or nonpublic home-based educational program does not offer an activity in which the student wishes to participate.

(b) If a student's school of attendance or nonpublic home-based educational program does not offer an activity in which the student wishes to participate, the student may participate in the activity at another public school in the student's school district of attendance or in the student's school district of residence. If the activity is not offered at any public school in the school district of attendance or the school district of residence, the student may participate in the activity at a public school in a school district that is contiguous to the student's school district of residence or at the nearest public school that has the facilities for and offers the activity, even if the public school is not in a contiguous school district.

(c) If an activity is not offered at the student's school of attendance and the student chooses to participate in the activity at a public school in a contiguous school district, the school district in which the student chooses to participate, as provided in paragraph (b) of this subsection (2), shall choose the public school at which the student shall participate. In choosing a public school, the school district shall choose the public school that offers the greatest number of activities in which the student wishes to participate.

(d) A student may participate in activities at more than one school of participation during the same school year only if the original school of participation does not offer an activity in which the student wishes to participate.

(3)

(a) If a student's school of attendance does not offer a particular activity, the student may choose to participate in the activity at a nonpublic school. The nonpublic school has discretion whether to allow the student to participate in an activity at the nonpublic school.

(b) A student may participate at a nonpublic school located in the student's school district of attendance or school district of residence. If the activity is not offered at a school in the student's school district of attendance or school district of residence, the student may apply to participate in the activity at a nonpublic school in a school district contiguous to the student's school district of residence.

(c) In choosing whether to participate in activities at a public or nonpublic school, the student shall choose the school of participation that offers the greatest number of activities in which the student wishes to participate. The limitation on the number of schools of participation specified in paragraph (d) of subsection (2) of this section applies regardless of whether the student participates in activities at a public or nonpublic school.

(4)

(a) To participate in an activity at the school of attendance, a student shall meet all of the requirements imposed by the school of attendance.

(b) To participate in an activity at a school of participation, a student shall:

(I) If the student is participating in a nonpublic home-based educational program, comply with all laws governing said programs;

(II) Comply with all eligibility requirements imposed by the school of participation;

(III) Comply with the same responsibilities and standards of behavior, including related classroom and practice requirements, as are imposed on other students participating in the activity at the school of participation.

(5) A student who has not met all eligibility requirements for or who would have become ineligible to participate in activities at a school cannot gain or regain eligibility by applying to participate in activities at another school pursuant to this section. A student shall pay any penalty assessed against the student at the student's school of attendance or school of participation before the student may regain eligibility at the school of attendance or school of participation or become eligible to participate in any activity at another school.

(5.5) For each athletic activity offered, a school district may:

(a) For a team athletic activity, reserve for students enrolled in the district of the school of participation up to twice the number of starting positions on a team at each level of competition;

(b) For an individual athletic activity, reserve for students enrolled in the district of the school of participation up to one-half the total number of team members at each level of competition.

(6)

(a) A school may charge any student participating in an activity a participation fee as a prerequisite to participation. The fee amount that a school of participation charges a nonenrolled student shall not exceed one hundred fifty percent of the fee amount the school of participation would charge an enrolled student to participate in the activity.

(b) If any fee is collected pursuant to this section for participation in an activity, the fee shall be used to fund the particular activity for which it is charged and shall not be expended for any other purpose.

(c) In addition to the fees allowed under paragraph (a) of this subsection (6), a school may charge a nonenrolled student participating in postseason competition in an individual athletic activity the actual cost of that postseason participation if the school is sponsoring only nonenrolled students in the postseason competition.

(7) For purposes of article 54 of this title, no student who participates in an activity in a school district other than the student's school district of attendance shall be included in the pupil enrollment of the school district where the student participates.

(8) The provisions of this section are intended to allow students to participate on an equal basis in extracurricular and interscholastic activities who would otherwise be denied the opportunity to do so and are not intended to sanction or encourage the recruitment of students for participation in such activities by schools or school districts.

(9) If a student transfers enrollment to another school without an accompanying change of domicile by the student's parent or legal guardian, the student's eligibility to participate in activities at the new school of attendance shall be determined under the rules of participation adopted by the school district in which the new school of attendance is located.

(9.5)

(a) Notwithstanding any rule adopted or agreed to by any public school or school district, any student who is sanctioned or is found by the school, school district, or any organization or association to which the school or school district belongs to be ineligible to participate in any activity for any reason, except unsportsmanlike conduct or ejection from an activity, may appeal the sanction or finding. The appeal may be made through the applicable process at the school, any league to which the school or school district belongs, or any other organization to which the school or school district belongs.

(b) Any student may bypass the appeal process at any time by filing a petition or complaint with a group of sitting or retired judges or other group of neutral arbitrators approved by the school, school district, or any organization or association to which the school or school district belongs. In rendering his or her decision, the judge or arbitrator shall consider whether any rule was properly applied to the student and whether a waiver of any rule should be granted. A final decision shall be rendered by the judge or arbitrator no later than thirty days after the filing of the petition or complaint and shall be binding on the student, the school, the school district, and any association or organization to which the school or school district belongs. Any cost associated with a judge or arbitrator shall be charged equally to the student and any association or organization to which the school or school district belong.

(c) This subsection (9.5) shall not apply to any coach's team rules that are uniformly applicable to all team members; except that no coach may adopt a rule that is contrary to any provision of this section.

(a) "Activity" means any extracurricular or interscholastic activity, including but not limited to any academic, artistic, athletic, recreational, or other activity offered by a school.

(b) "Nonpublic home-based educational program" has the same meaning as in section 22-33-104.5(2).

(h) "School district of residence" means the school district in which a student resides.

(i) "School of participation" means a school, other than the student's school of attendance, in which the student participates in an activity.

Florida Statutes § 1006.15

Student standards for participation in interscholastic and intrascholastic extracurricular student activities; regulation

(1) This section may be cited as the “Craig Dickinson Act.”

(2) Interscholastic extracurricular student activities are an important complement to the academic curriculum. Participation in a comprehensive extracurricular and academic program contributes to student development of the social and intellectual skills necessary to become a well-rounded adult. As used in this section, the term “extracurricular” means any school-authorized or education-related activity occurring during or outside the regular instructional school day.

(3)

(a) To be eligible to participate in interscholastic extracurricular student activities, a student must:

1. Maintain a grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the previous semester or a cumulative grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the courses required by s.1003.43(1).

2. Execute and fulfill the requirements of an academic performance contract between the student, the district school board, the appropriate governing association, and the student's parents, if the student's cumulative grade point average falls below 2.0, or its equivalent, on a 4.0 scale in the courses required by s. 1003.43(1) or, for students who entered the 9th grade prior to the 1997-1998 school year, if the student's cumulative grade point average falls below 2.0 on a 4.0 scale, or its equivalent, in the courses required by s. 1003.43(1) that are taken after July 1, 1997. At a minimum, the contract must require that the student attend summer school, or its graded equivalent, between grades 9 and 10 or grades 10 and 11, as necessary.

3. Have a cumulative grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the courses required by s. 1003.43(1) during his or her junior or senior year.

4. Maintain satisfactory conduct and, if a student is convicted of, or is found to have committed, a felony or a delinquent act which would have been a felony if committed by an adult, regardless of whether adjudication is withheld, the student's participation in interscholastic extracurricular activities is contingent upon established and published district school board policy.

(b) Any student who is exempt from attending a full school day based on rules adopted by the district school board for double session schools or programs, experimental schools, or schools operating under emergency conditions must maintain the grade point average required by this section and pass each class for which he or she is enrolled.

(c) An individual home education student is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend pursuant to district or interdistrict controlled open enrollment provisions, or may develop an agreement to participate at a private school, in the interscholastic extracurricular activities of that school, provided the following conditions are met:

1. The home education student must meet the requirements of the home education program pursuant to s. 1002.41.

2. During the period of participation at a school, the home education student must demonstrate educational progress as required in paragraph (b) in all subjects taken in the home education program by a method of evaluation agreed upon by the parent and the school principal which may include: review of the student's work by a certified teacher chosen by the parent; grades earned through correspondence; grades earned in courses

taken at a community college, university, or trade school; standardized test scores above the 35th percentile; or any other method designated in s. 1002.41.

3. The home education student must meet the same residency requirements as other students in the school at which he or she participates.

4. The home education student must meet the same standards of acceptance, behavior, and performance as required of other students in extracurricular activities.

5. The student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before the beginning date of the season for the activity in which he or she wishes to participate. A home education student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a home education program to a public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period provided the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a home education student until the student has successfully completed one grading period in home education pursuant to subparagraph 2 to become eligible to participate as a home education student.

.

(4) The student standards for participation in interscholastic extracurricular activities must be applied beginning with the student's first semester of the 9th grade. Each student must meet such other requirements for participation as may be established by the district school board; however, a district school board may not establish requirements for participation in interscholastic extracurricular activities which make participation in such activities less accessible to home education students than to other students. Except as set forth in paragraph (3)(c), evaluation processes or requirements that are placed on home education student participants may not go beyond those that apply under s. 1002.41 to home education students generally.

(5) Any organization or entity that regulates or governs interscholastic extracurricular activities of public schools:

(a) Shall permit home education associations to join as member schools.

(b) Shall not discriminate against any eligible student based on an educational choice of public, nonpublic, or home education.

(6) Public schools are prohibited from membership in any organization or entity which regulates or governs interscholastic extracurricular activities and discriminates against eligible students in public, nonpublic, or home education.

(7) Any insurance provided by school districts for participants in extracurricular activities shall cover the participating home education student. If there is an additional premium for such coverage, the participating home education student shall pay said premium.

(8)

(a) The Florida High School Athletic Association (FHSA), in cooperation with each district school board, shall facilitate a program in which a middle school or high school student who attends a private school shall be eligible to participate in an interscholastic or intrascholastic sport at a public high school, a public middle school, or a 6-12 public school that is zoned for the physical address at which the student resides if:

1. The private school in which the student is enrolled is not a member of the FHSAA and does not offer an interscholastic or intrascholastic athletic program.
 2. The private school student meets the guidelines for the conduct of the program established by the FHSAA's board of directors and the district school board. At a minimum, such guidelines shall provide:
 - a. A deadline for each sport by which the private school student's parents must register with the public school in writing their intent for their child to participate at that school in the sport.
 - b. Requirements for a private school student to participate, including, but not limited to, meeting the same standards of eligibility, acceptance, behavior, educational progress, and performance which apply to other students participating in interscholastic or intrascholastic sports at a public school or FHSAA member private school.
- (b) The parents of a private school student participating in a public school sport under this subsection are responsible for transporting their child to and from the public school at which the student participates. The private school the student attends, the public school at which the student participates in a sport, the district school board, and the FHSAA are exempt from civil liability arising from any injury that occurs to the student during such transportation.
- (c) For each academic year, a private school student may only participate at the public school in which the student is first registered under sub-subparagraph (a) 2.a. or makes himself or herself a candidate for an athletic team by engaging in a practice.
- (d) The athletic director of each participating FHSAA member public school shall maintain the student records necessary for eligibility, compliance, and participation in the program.
- (e) Any non-FHSAA member private school that has a student who wishes to participate in this program must make all student records, including, but not limited to, academic, financial, disciplinary, and attendance records, available upon request of the FHSAA.
- (f) A student must apply to participate in this program through the FHSAA program application process.
- (g) Only students who are enrolled in non-FHSAA member private schools consisting of 125 students or fewer are eligible to participate in the program in any given academic year.

Idaho Code § 33-203

Dual enrollment

(1) The parent or guardian of a child of school age who is enrolled in a nonpublic school or a public charter school shall be allowed to enroll the student in a public school for dual enrollment purposes. The board of trustees of the school district shall adopt procedures governing enrollment pursuant to this section. If enrollment in a specific program reaches the maximum for the program, priority for enrollment shall be given to a student who is enrolled full time in the public noncharter school.

(2) Any student participating in dual enrollment may enter into any program in the public school available to other students subject to compliance with the eligibility requirements herein and the same responsibilities and standards of behavior and performance that apply to any student's participation in the activity, except that the academic eligibility requirements for participation in nonacademic activities are as provided for herein.

(3) Any school district shall be allowed to include dual-enrolled nonpublic school and public charter school students for the purposes of state funding only to the extent of the student's participation in the public school programs.

(4) Oversight of academic standards relating to participation in nonacademic public school activities shall be the responsibility of the primary educational provider for that student. In order for any nonpublic school student or public charter school student to participate in nonacademic public school activities for which public school students must demonstrate academic proficiency or eligibility, the nonpublic school or public charter school student shall demonstrate composite grade-level academic proficiency on any state board of education recognized achievement test, portfolio, or other mechanism as provided for in state board of education rules. Additionally, a student shall be eligible if he achieves a minimum composite, core or survey test score within the average or higher than average range as established by the test service utilized on any nationally-normed test. Demonstrated proficiency shall be used to determine eligibility for the current and next following school years. School districts shall provide to nonpublic students who wish to participate in dual enrollment activities the opportunity to take state tests or other standardized tests given to all regularly enrolled public school students.

(5) A public school student who has been unable to maintain academic eligibility is ineligible to participate in nonacademic public school activities as a nonpublic school or public charter school student for the duration of the school year in which the student becomes academically ineligible and for the following academic year.

(6) A nonpublic school or public charter school student participating in nonacademic public school activities must reside within the attendance boundaries of the school for which the student participates.

(7) Dual enrollment shall include the option of joint enrollment in a regular public school and an alternative public school program. The state board of education shall establish rules that provide funding to school districts for each student who participates in both a regular public school program and an alternative public school program.

(8) Dual enrollment shall include the option of enrollment in a post-secondary institution. Any credits earned from an accredited post-secondary institution shall be credited toward state board of education high school graduation requirements.

(9) A nonpublic student is any student who receives educational instruction outside a public school classroom and such instruction can include, but is not limited to, a private school or a home school.

Illinois Compiled Statutes § 105 ILCS 5/10-20.24

Part-time attendance

To accept in part-time attendance in the regular education program of the district pupils enrolled in nonpublic schools if there is sufficient space in the public school desired to be attended. Request for attendance in the following school year must be submitted by the nonpublic school principal to the public school before May 1. Request may be made only to those public schools located in the district where the child attending the nonpublic school resides.

To accept, pursuant to the provisions of Section 14-6.01 [105 ILCS 5/14-6.01], in part-time attendance resident pupils of the types described in Sections 14-1.02 through 14-1.07 [105 ILCS 5/14-1.02 through 105 ILCS 5/14-1.07] who are enrolled in nonpublic schools.

Illinois Compiled Statutes § 105 ILCS 5/14-6.01

Powers and duties of school boards

School boards of one or more school districts establishing and maintaining any of the educational facilities described in this Article shall, in connection therewith, exercise similar powers and duties as are prescribed by law for the establishment, maintenance and management of other recognized educational facilities. Such school boards shall include only eligible children in the program and shall comply with all the requirements of this Article and all rules and regulations established by the State Board of Education. Such school boards shall accept in part-time attendance children with disabilities of the types described in Sections 14-1.02 through 14-1.07 who are enrolled in nonpublic schools. A request for part-time attendance must be submitted by a parent or guardian of the disabled child and may be made only to those public schools located in the district where the child attending the nonpublic school resides; however, nothing in this Section shall be construed as prohibiting an agreement between the district where the child resides and another public school district to provide special educational services if such an arrangement is deemed more convenient and economical. Special educational services shall be provided to such students as soon as possible after the identification, evaluation and placement procedures provided in Section 14-8.02, but no later than the beginning of the next school semester following the completion of such procedures. Transportation for students in part time attendance shall be provided only if required in the child's individualized educational program on the basis of the child's disabling condition or as the special education program location may require.

Iowa Code § 256.46

Rules for participation in extracurricular activities by certain children

The state board shall adopt rules that permit a child who does not meet the residence requirements for participation in extracurricular interscholastic contests or competitions sponsored or administered by an organization as defined in section 280.13 to participate in the contests or competitions immediately if the child is duly enrolled in a school, is otherwise eligible to participate, and meets one of the following circumstances or a similar circumstance: the child has been adopted; the child is placed under foster or shelter care; the child is living with one of the child's parents as a result of divorce, separation, death, or other change in the child's parents' marital relationship, or pursuant to other court-ordered decree or order of custody; the child is a foreign exchange student, unless undue influence was exerted to place the child for primarily athletic purposes; the child has been placed in a juvenile correctional facility; the child is a ward of the court or the state; the child is a participant in a substance abuse or mental health program; or the child is enrolled in an accredited nonpublic high school because the child's district of residence has entered into a whole grade sharing agreement for the pupil's grade with another district. The rules shall permit a child who is otherwise eligible to participate, but who does not meet one of the foregoing or similar circumstances relating to residence requirements, to participate at any level of competition other than the varsity level. For purposes of this section and section 282.18, "varsity" means the highest level of competition offered by one school or school district against the highest level of competition offered by an opposing school or school district.

Iowa Code § 299A.8

Dual enrollment

If a parent, guardian, or legal custodian of a school-age child who is receiving competent private instruction under this chapter submits a request, the child shall also be registered in a public school for dual enrollment purposes. (2)

(a) If seeking to participate at a state-approved nonpublic high school that is a member of the association, participation shall be at the sole discretion of the governing authority of the nonpublic school. If participation is permitted, the governing authority shall determine the terms and conditions of any such participation at the school. However, the student's participation shall be subject to the same requirements, policies, and rules of eligibility of the Louisiana High School Athletic Association as applicable to other students participating in the activity at that school, excluding any association requirements, policies, or rules that prohibit or restrict such participation by a student in a state-approved home study program.

(e) No person, individually or on behalf of any other person, shall have a cause of action arising from a denial by a public school principal of participation by a home study student in interscholastic athletics at the school or, if a home study student is allowed by the principal to participate under the terms and conditions provided by this Section from any refusal or denial of further participation by the student in interscholastic athletics at the school.

(3) After a decision is made by the principal to approve a request for the student to participate, the student then shall participate in any tryouts for such activity at the same time and in the same manner as other students who want to participate in the same activity.

(4) At the time of participation in the athletic activity, the student and the student's home study program shall be in full compliance with all guidelines, standards, and requirements established by R.S. 17:236.1 for a home study program to be approved by the state.

(7) The student shall meet conditions applicable to students at the school relative to having any required insurance coverage either by participating, if otherwise eligible, in insurance programs offered through the school or school system or by providing for such insurance coverage in another manner.

C.

(1) A student who has been enrolled in a public or nonpublic school during the school year in which the student begins home study or during the previous school year and who was determined ineligible to participate in one or more interscholastic extracurricular activities at such school for reasons related to student conduct or academic performance, or both, shall be ineligible to participate in interscholastic athletic activities as provided by this Section for one calendar year from the date the student was determined ineligible.

v.
MASSACHUSETTS INTERSCHOLASTIC
ATHLETIC ASSOCIATION, INC., and Dr. Morris
Splain, Superintendent of Norton High School

No. CA942887. | Jan. 18, 1995.

Opinion

MEMORANDUM OF DECISION AND ORDER PLAINTIFF'S REQUEST FOR A PRELIMINARY INJUNCTION

DONOHUE, Judge.

*1 Plaintiff, Richard Davis, brings this action on behalf of his daughter, Melissa Davis ("Melissa"). Plaintiff seeks to enjoin the defendants from preventing his **home-schooled** daughter from trying out for and participating on the Norton High School girls' softball team. Plaintiff claims that the Massachusetts Interscholastic Athletic Association, Inc.'s ("MIAA") actions were arbitrary and capricious and in violation of the Constitution of the Commonwealth of Massachusetts and the Fourteenth Amendment of the U.S. Constitution. The MIAA argues that **home-schooled** students are not members of a school since they do not attend school sessions and are thus not eligible to participate in interscholastic athletic programs.

FACTS¹

Melissa Davis is a **home-schooled** student who resides in Norton, Bristol County, Massachusetts. She is under the educational jurisdiction of the principal of Norton High School and adheres to a **home-school educational** plan approved by the Norton School Committee. Melissa is a windmill softball pitcher and wants to try out for the Norton High School girls' softball team.

On or about September 12, 1994, an application for a student waiver of the athletic eligibility rule was submitted to the MIAA on Melissa's behalf. On or about September 16, 1994, the MIAA denied Melissa's application for a waiver. The MIAA based its decision on

rule 65 of the MIAA rules. This rule requires a student to be attending school sessions in order to participate in interscholastic athletics. The MIAA determined that because Melissa was **home-schooled** she was not attending school sessions within the meaning of rule 65 and thus was not eligible to try out for the girls' softball team. The Superintendent of Norton High School, defendant Dr. Morris Splain, has indicated that he will not allow Melissa to play on the team without a waiver from the MIAA.² Since tryouts for the team are scheduled in January and February of this year, Melissa is seeking a preliminary injunction.

DISCUSSION

When evaluating a request for a preliminary injunction the court must first evaluate, in combination, the moving party's claim of injury and its chance of success on the merits. *Packaging Industries Group, Inc. v. Cheney*, 380 Mass. 609, 616-17 (1980). If the failure to issue the injunction would subject the moving party to a substantial risk of irreparable harm, the court must then balance this risk against any similar risk of irreparable harm which granting the injunction would create for the opposing party. *Id.* "In the context of a preliminary injunction the only rights which may be irreparably lost are those not capable of vindication by a final judgment, rendered either in law or in equity." *Id.* at 617 n. 11.

The MIAA denied a waiver for Melissa to try out for the girls' softball team because she was not attending school sessions. However, in *Care and Protection of Charles*, 399 Mass.324 (1987), the Supreme Judicial Court held that a **home school** shall meet all of the same requirements for the approval of a private school. Furthermore, G.L.c. 76, §1 (1992 ed.) provides that a private school must meet the same educational requirements of the public schools in the same town.

*2 Melissa's **home-schooling** program has been approved by the superintendent of Norton High School and her academic progress is constantly monitored by the school. Melissa has taken all required standardized tests and has performed equal to or above high school levels. Therefore, although Melissa does not attend school sessions at Norton High School, she attends school sessions at her home that are academically equivalent to those at Norton High School. Plaintiff argues that MIAA rule 65 violates Melissa's equal protection rights. For the purposes of this analysis, the standard of review under the cognate provisions of the Massachusetts Declaration of

Nevada Administrative Code ch. 386, § 802

Academic eligibility: Courses and units of credit.

1. For each semester a pupil participates in a sanctioned sport, the pupil must enroll in a course of at least two units of credit consisting of at least four classes and regularly attend a school. The pupil must successfully complete a course of at least two units of credit for the immediately preceding semester. If a pupil fails to complete successfully the course for that semester, the pupil is ineligible to participate in a sanctioned sport for one semester unless, for the grading period for the first 9 weeks of the semester that is conducted immediately after that semester, he or she receives a passing grade for the two units of credit for the grading period, at which time he or she must be placed on weekly probation. If the pupil receives a failing grade during the probationary period, the pupil is ineligible to participate in a sanctioned sport for the remainder of the semester in which he or she is placed on weekly probation.

2. A pupil may enroll in a course for one unit of credit for each semester he or she enrolls in a correspondence course or attends any summer school, night school or any other school, including, without limitation, a postsecondary educational institution, and receive credit for the satisfactory completion of that course toward the satisfaction of the requirements for academic eligibility if the principal of the school in which the pupil is enrolled indicates in writing that the course qualifies for credit for the pupil's requirements for graduation.

3. Any course taken or unit of credit received by a pupil pursuant to subsection 2 becomes a part of the pupil's academic record and, after the grade for the course or unit of credit is recorded on his or her transcript, applies to the requirements for academic eligibility to participate in a sanctioned sport.

4. A school shall ensure that each course or unit of credit in which a pupil who participates in a sanctioned sport is enrolled is reviewed in accordance with the provisions of NAC 386.804, 386.805 or 386.806, as adopted by the school pursuant to the provisions of NAC 386.803, to determine academic eligibility to participate in the sanctioned sport.

Nevada Administrative Code ch. 386, § 804

Academic eligibility: Passing grades during season; periodic reviews of pupil's progress.

1. If, pursuant to the provisions of NAC 386.803, a school district adopts the requirements for academic eligibility set forth in this section, each pupil who participates in a sanctioned sport at a school that is located in the school district must maintain a passing grade for each course he or she takes during the season. The school shall, in accordance with this section, review the pupil's progress in each course at least once every 3 weeks, including any vocational, magnet, college or night courses taken by the pupil at a school other than the school where the pupil participates in a sanctioned sport.

2. Except as otherwise provided in subsections 3 and 4, each school district shall establish the dates for conducting the reviews required pursuant to this section based on its academic calendar for each school year. The dates must be determined:

(a) By beginning at the end of the first semester of the school year and counting back to the beginning of the school year in increments of 3 weeks; and

(b) From the beginning of the second semester of the school year and counting forward to the end of the school year in increments of 3 weeks.

3. If approved by the Executive Director, a school district may establish a date for conducting a review pursuant to this section that occurs not more than 1 week before or after any date that the school district must establish pursuant to subsection 2. The Executive Director may waive the establishment of a date for conducting a review pursuant to this section if, as determined by the Executive Director, the review scheduled for that date is unnecessary.

4. A school shall not conduct the first review during a school year until after the first date on which a game, contest or meet may be scheduled for a season as determined by the schedule of activities established by the Association for that purpose.

5. Each review must indicate the pupil's academic status for the period beginning on the first day of the semester and ending on the date on which the review is conducted and must be determined in accordance with the regulations of the school district in which the school is located. Each review may include the pupil's cumulative semester grades or 9-week grades, or any combination thereof. Each school district shall declare the eligibility or ineligibility of a pupil to participate in a sanctioned sport based on the policy of the school district.

6. If a pupil receives a failing grade in an academic course after a review is conducted for the pupil pursuant to this section, the school that conducted the review shall place the pupil on probation for 1 week. A pupil who is placed on probation remains eligible to participate in the sanctioned sport in which he or she participates during the probationary week and must be reviewed on the Friday of the probationary week.

7. If a pupil who is placed on probation pursuant to subsection 6 continues to maintain a failing grade at the review conducted on the Friday of the probationary week, the school that conducted the review shall declare the pupil to be ineligible to participate in a sanctioned sport for the period beginning on the Monday after he or she is declared ineligible and ending on the first Saturday after that Monday.

8. If a pupil is declared ineligible after the probationary week, the school shall conduct a review of the pupil each week until the pupil becomes eligible, regardless of whether that period extends beyond the next scheduled review. If the pupil becomes eligible, the pupil must be reviewed at the next regularly scheduled review and is entitled to another probationary week.

9. If a review is scheduled pursuant to this section for the day before a holiday or vacation for the school, and if a pupil has received a failing grade at the time the review is conducted:

(a) The pupil remains eligible to participate in a sanctioned sport during the holiday or vacation; and

(b) The school that conducted the review shall place the pupil on probation beginning on the first school day after the holiday or vacation.

10. A pupil who is placed on probation the week before a school holiday or vacation is eligible to participate in a sanctioned sport if the school determines that the pupil has maintained passing grades at the regularly scheduled review conducted immediately before the holiday or vacation. If the school determines that the pupil has not maintained passing grades after that review is conducted, the pupil remains ineligible during the holiday or vacation.

11. A pupil who is declared ineligible not more than 2 weeks before a school holiday or vacation remains ineligible to participate in the sanctioned sport until achieving a passing grade as determined by each weekly review conducted pursuant to this section.

12. If a pupil withdraws or is excluded from a class because he or she received a failing grade during a semester, the school shall, immediately after the record of the withdrawal or exclusion becomes available, declare the pupil ineligible to participate in the sanctioned sport for the period beginning on the Monday after he or she withdraws or is excluded and ending on the first Saturday after that Monday. The provisions of this subsection do not exempt a pupil from complying with the requirement set forth in subsection 1 of NAC 386.802.

Code of Vermont Rules 22-000-009, §§ 4401-05

Section 4401 Statutory Authority.

Section 4402 Definitions.

“Facilities” means the portions of a school building and grounds used by students for classes, study and co-curricular or extracurricular activities.

“Home study student” means a student enrolled in a registered home study program pursuant to 16 V.S.A. §166b. “Integrated course” means a course covering two or more subjects that are taught in a unified manner by one teacher or team where the subjects cannot be separated into discrete sections for purposes of student attendance.

Section 4403 Part-time Enrollment of Home Study Students in Public School Academic Programs.

4403.1 A home study student shall be eligible to enroll as a part-time student in a school operated by his or her district of residence or, if the district does not operate a school, in a public school for which his or her district of residence is required to pay tuition.

4403.2 Each school board shall adopt, by July 1, 1999, policies and procedures to ensure that home study students who request part-time enrollment in academic courses or programs are accepted into those courses or programs, and are furnished with required learning materials, on the same basis as full-time students.

4403.3 Policies and procedures adopted under this rule shall:

(a) upon inquiry by a home study student or parent, require the provision by the district of the student’s residence of information concerning the availability of part-time enrollment in school. Such information shall include procedures, including registration deadlines, that home study students must follow to enroll on a part-time basis in the schools operated by the home study student’s district of residence. In the event the district of residence does not operate a school in the grades appropriate to the inquiring student, the student or parents shall be given information on how to contact neighboring school districts that accept tuition students from the district of residence.

(b) apply the same enrollment procedures and deadlines to home study students that apply to full-time students.

(c) specify any enrollment capacity limits that the school board will apply to particular academic courses or grade levels. Capacity limits shall apply equally to home study and full-time students.

(d) establish criteria to determine whether home study students are eligible to enroll in integrated courses and courses that are available only to students who fulfill prerequisites. Criteria applied to courses with prerequisites shall be applied equally to home study and full-time students. Reasonable indications that academic criteria have been met, including results from achievement tests or other indications of adequate preparation, may be required of home study students, so long as those students are required to meet the same prerequisite standards as full-time students.

(e) establish informal and expeditious processes to appeal denials of requests for part-time enrollment to administrators and/or the school board.

Section 4404 Participation of Home Study Students in Public School Co-curricular and Extracurricular Activities.

4404.1 A home study student shall be eligible to participate in or, when selection to participate in an activity is made on a competitive basis, to try out for, one or more co-curricular or extracurricular activities at a school operated by his or her district of residence or, if the district does not operate a school, at a public school for which his or her district is required to pay tuition. This rule is not intended to confer a right upon any student to participate in any activity. Although a home student need not enroll in academic programs to participate in activities under this rule, he or she must show compliance with insurance, physical examination, age, transfer and other requirements of the Vermont Principals Association on the same basis as enrolled students.

4404.2 Each school board shall adopt, by July 1, 1999, policies and procedures to ensure that home study students who wish to participate in co-curricular or extracurricular activities are accepted into those activities without first being required to enroll as part-time students at the sponsoring school.

4404.3 Policies and procedures adopted under this rule shall:

(a) upon inquiry by a home study student or parent, require the provision by the district of the student's residence of information concerning the eligibility of home study students to participate in co-curricular or extracurricular activities. Such information shall include procedures, including registration deadlines, that home study students must follow to participate in activities at schools operated by the home study student's district of residence. In the event the district of residence does not operate a school in the grades appropriate to the inquiring student, the student or parents shall be given information on how to contact neighboring school districts that accept tuition students from the district of residence.

(b) apply the same activity registration deadlines to home study students that apply to full-time students.

(c) apply the same academic eligibility requirements to home study students that apply to full-time students. Policies may require the parents of home study students to provide assurances that the school's academic eligibility standards are being met. Such assurances may be required at the same intervals during the year as is required of full-time students. A home study parent's assurance that the student meets the district's academic standards, provided at the intervals required by the school, shall be sufficient to satisfy academic eligibility requirements.

(d) establish priorities and criteria for admitting students to particular activities. When space is limited in a particular activity, preference may be given to enrolled students as long as the reporting requirement in § 4404.4 of these rules is met. Procedures for admitting home study students to activities with limited spaces may include lotteries, first-come-first-served waiting lists and performance-based criteria for participation on sports teams or in activities.

(e) Policies adopted in compliance with this rule shall establish informal and expeditious procedures to appeal denials of requests to participate in activities to administrators and/or the school board.

4404.4 When a home study student's request to participate in an activity is denied on the grounds that space is not available and that preference is given to full-time students, the school shall, within 30 days of the denial, notify the Home Study Consultant at the Department of Education on a form provided by the Department.

Section 4405 Use of School Facilities by Home Study Students.

4405.1 A home study student may use facilities at a school operated by his or her district of residence or, if the district does not operate a school, at a public school for which his or her district is required to pay tuition.

4405.2 Each school board shall adopt, by July 1, 1999, policies and procedures to ensure that home study students are allowed to use school facilities on the same basis as full-time students.

4405.3 Policies and procedures adopted under this rule shall:

(a) apply to home study students the same criteria, procedures and deadlines for requesting the use of school facilities as are applied to full-time students.

(b) upon inquiry by a home study student or parent, require the provision by the district of the student's residence of information concerning the use of school facilities operated by the district. In the event the district does not operate a school in the grades appropriate to the inquiring student, the student or parents shall be given information on how to contact neighboring school districts which accept tuition students from the district of residence.

(c) provide for the establishment of criteria to determine whether sufficient space is available to comply with specific requests for facilities use. Criteria may also be developed to establish fees, to be applied equally to home study and full-time students, for security, janitorial or other services not normally available at the time of the requested use.
